ANDRE CASTEX PASSES AWAY.

Summons Came at His Home on Napa Street After an Illness of Sometime.

Andre Pierre Castex, the well-known and popular proprietor of the Pioneer French Bakery, passed away at his home on Napa street last Saturday at noon. The deceased had been ailing for sometime and had been confined to his bed almost constantly for several weeks previous to his death. Mr. Castex, who had resided here for a great many years, was a thrifty, energetic, honest and industrious man. He formally conducted his bakery on First street East but in 1905 owing to the large increase of his business, decided to move with his little family to Napa street. Here he erected a handsome two-story stone building, wherein he resumed his business and had made his residence up to the time of his death.

Mr. Castex was a native of France and was only 42 years of age. He leaves to mourn his departure, the widow, Mrs. Constance Castex and two children, Zoe and Raymond Castex.

In his passing, Sonoma has lost a good citizen and he will be sadly missed by his relatives and many friends.

The local order of Moose, of which deceased was a member, attended the funeral in a body. The funeral services took place in St. Francis' Church Tuesday morning.

The remains were taken to San Francisco, where services and burial were held under the direction of the Foresters, on Thursday.

The Woman's Reason.

[Inside Information on the Suffragette Riots]

Why smash the postoffices?
Well, we like not the word "mail",
It don't sound good to us;
We want to "register" something there
That will make a goodly fuss.
We want you all to recognize
The "stamp" of woman's foot
We're burning up with madness
And you've got to stand the soot.
We own we're smashed and ripped and tore
And well we know that London's sore.
We'll show that Asquith— let him cuss;
Hell hath no fury just like us.
In shame our keepers heads are bowed,
In tumult wild our voices loud
No food they proffer will we take
While yet the woman's cause at stake.
With hatchet, fire brand and club
We'll prove that woman is no dub:
We have the face to do it, yes
The prison doors may yawn
Not so you males
We keep things far too lively
On the streets and in the jails!

CELESTE GRANICE MURPHY

Dr. A. E. Osborne the Johnson appointee of the State Hospital at Napa is "in wrong" all right but is not inhumane, as anyone who knows him will bear witness. Every mishap at the asylum is attributed to the incompetence of the superintendant, but such is the way of bull moose politics.

A woman named Blessing has been apphrended in Portland and arrested for forgery. If it had been a case of blessing in disguise, the officers might not have nabbed her.

Wonderful Cures Reported in Germany.

The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. In Germany a new school of physicians has arisen which throws out almost a whole of the pharmacopeia and relies on an adaptation of the method of wild animals in curing themselves. . . . . *N. Y. World.*

It was Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., who first advocated the extended use of some of our native roots, such as: Golden seal and Oregon grape root, mandrake and queen's root, black cherrybark. These are the chief ingredients in Doctor Pierce's Golden Medical Discovery, which has been so well and favorably known for nearly half a century. A harmless cleanser and stomach tonic that *nature* has provided.

D. MATHESON, Esq.

J. DONALD MATHESON of Ossining, N. Y. says: "I suffered for over five years with what the doctors told me was *dilated condition of the stomach, associated with a catarrhal condition of same, and nervous heart.* I had tried enough nux, bismuth, gentian, rhubarb, etc., to float a ship and naturally thought there was no cure for me, but after reading what eminent doctors said of the curative qualities of the ingredients of 'Golden Medical Discovery' I gave it a fair trial. Took the 'Discovery' and also the 'Pleasant Pellets,' and can truthfully say I am feeling better now than I have in years. I cheerfully give permission to print this testimonial, and if any 'doubting Thomas' writes me I will 'put him wise' to the best all-around medicine in the country to-day."

Attention

W. W. Carter, the real estate man, is agent for the California Nursery Co. of Niles and the Silva Beightholdt Co. of New Castle. These both are reliable firms, and are sure to give satisfaction Office Napa St., West of Union Hotel.

It is important that the Assemblyman from this district in the next legislature be a member of the majority party, in order that he may accomplish anything for the district which he represents. As the next Legislature will be Republican by a good majority, a democrat, being in the minority, could accomplish little. The Republican nominee, Lucien E. Fulwider, is especially qualified to represent the district, and will no doubt be elected by a large majority.

Z Moore late of Texas, has purchased from W. W. Carter the real estate man, ten acres in the Rixford tract, which he will improve.

Grape picking commenced in the P. I. Company's large vineyard here Monday. B. Basaglia of Sonoma has the contract.

"The Anti-Saloon League" is the big talk here this week. Everybody is up in arms against this measure, as they say if it should carry at the November election, it would sure be a victory for the Prohibitionists and the leading up to another local option election, then if the road houses should be closed, it would be a serious thing for the thirty-five room hotels which would be left in business.

Fritz Holland, "the flying Dutchman," has been matched to box Kid George at Taft on the evening of October 17th. The former is training here at the Bellevue "gym."

Billy Fowler Jr., a leading society chap of Sonoma, went up to Santa Rosa Saturday evening on the S. P. train.

A large number of our ball fans attended the banquet given to the Sonoma baseball team by the popular manager, Charley LaTorres, at the Palace Hotel Saturday night. All report a large time.

The wineries here are all getting ready to make wine and the grape crop is rather large in these parts. The wine men say that the 23 sign is on the anti-saloon amendment and it surely will be defeated. No doubt they are right.

Louis Bernzaft has purchased several acres on the L. L. Lewis ranch, which he will convert into a large poultry farm. He will also raise rabbits and pigeons.

Mr. and Mrs. H. Norrbom and children, accompanied by Mr. and Mrs. A. Chance and children, motored to Sausalito Sunday, in the former's new Ford automobile.

James Baines, L. Hughes and Harry Baines returned home Sunday after a two-weeks automobile trip. The boys went as far as Eureka and travelled through the roughest part of the country. Several deer were killed, and numerous other game. They also passed a number of dry towns and say it was a pitiful sight to see the buildings, principally hotels and stores, with windows broken and boarded up. A few starved farmers, ex-merchants etc., were seen loitering about the streets and they said if they could only have wet towns again, they would try and keep them that way. The boys covered 1000 miles in all and never had a mishap.

Eddie Peterson of Sonoma took the S. P. train for Kenwood Monday evening.

The N. W. P. has had a large electric light placed at Verano station. This is a big accommodation to the travelling public and also the bus drivers.

At a meeting of the Tuesday afternoon sewing club, the ladies indorsed Blair Hart the democratic nominee for Supervisor. "Leave it to the ladies Blair." Belle Brandon, the pretty reporter is here doing politics among her set for you and she is some politician too."

G. W. Reed Returns Home

G. W. Reed, the well known station agent, returned home to Sonoma after a three weeks tour through the eastern states, last Tuesday. During his absence he visited Chicago, New York, Washington and many other cities. He says with all their sky scrapers, underground rail ways and property, when it comes to commerce, pleasure and a bright future, San Francisco can put it all over the east. Mr. Reed is a good booster and hollered loud for California and Sonoma County. Geo. made a mistake when he tried to tell the easterners that California would line up for the Bull Moose.

PRESIDENT TAFT'S SPLENDID RECORD

SOME OF THE ACHIEVEMENTS OF HIS ADMINISTRATION PRESENTED.

GREAT WORK HAS BEEN DONE

More Prosecutions of Trusts and More Social Reforms Secured Than Under Any Previous President.

"He has met every crisis that has arisen during his administration with firmness and resolution. The bluff and bluster of political enemies have not made him flinch an iota from his determination to do that which he believes to be for the general welfare of all classes of people in this republic."—Representative Kahn of California, in an address reviewing President Taft's Administration.

The record of President Taft's administration is one of splendid achievement.

His administration has broken all records for prosecutions brought and won under the Sherman anti-trust law. Without fear or favor it has brought to the bar of justice corporations and persons engaging in illegal combinations in restraint of trade, the ultimate purpose of each combination being to create a monopoly and to raise the prices on its products. In two years and eleven months of his administration President Taft caused to be instituted twenty-two civil suits and forty criminal suits against illegal trusts. Roosevelt, in the seven and a half years of his presidency, only instituted forty-four suits against illegal combinations.

Under President Taft's administration the great Sugar trust frauds were unearthed, resulting in the forced restitution of millions of dollars into the national treasury. These frauds, which were based upon the bribery of customs officials to dishonestly value imports of sugar, were in progress during the last administration, but were not detected until Taft became president.

Corporation Tax.

President Taft suggested and secured the enactment of a law imposing a tax upon corporations which adds $30,000,000 annually to the revenues of the government.

He advocated and approved the law establishing postal savings banks. These banks are now the depositories of many millions of dollars and afford to people of small means in remote localities an easy and safe method of accumulating money.

Under his direction there has been an investigation of the excessive and unfair charges of the express companies and a complete rearrangement of rates ordered.

Railroads have been prevented from putting rate increases into effect without the approval of the interstate commerce commission. While this legislation was pending an effort was made by certain trunk lines to increase rates. A temporary injunction was immediately obtained by the attorney general, and by agreement with the railroad presidents they did not put the increases into effect but waited for the enactment of the law. They then applied to the interstate commerce commission for permission, under the new law, to make the increase, but their application was denied by the commission. The railroads denounced the president and his attorney general for the stand they took in protecting the rights of the shippers.

Other Reforms Accomplished.

The white slave traffic has been vigorously and effectively attacked, and severe punishment has been meted out to those engaged in the nefarious business.

A bureau of mines has been established, so as to safeguard the lives of miners. President Taft personally attended a demonstration of the methods employed to rescue miners and has done everything in his power to give efficiency to this new bureau.

Another great social reform which President Taft advocated and which received his hearty approval [illegible] law was passed [illegible] gation of child labor conditions by the government. President Taft selected a woman to manage the bureau which is conducting the inquiry in order that there might be a sympathetic and thorough administration of the law.

Under President Taft's administration the Panama canal will be completed ahead of time, without a taint of graft. President Taft has made several visits to the isthmus in order to personally assure himself that the work was being prosecuted honestly and vigorously.

An income tax amendment to the federal constitution has been submitted to the states and now lacks only the affirmative action of the legislatures of three or four additional states to become a part of the fundamental law of the land.

Tariff Revised Downward.

The tariff has been revised downward. Under the Payne tariff law, approved by President Taft, the list of articles admitted duty free was increased, while the average rates of duty upon all dutiable articles was decreased. No American industry has been crippled and not one American workman has been thrown out of employment by reason of its enactment. Believing that the schedules might be still further revised, President Taft created the tariff board, an organization of experts, who dealt with the tariff problem from a business point of view and who suggested further changes. The Democratic house of representatives ignored these well-considered recommendations and also legislated the tariff board out of existence. The tariff bills vetoed by President Taft were framed by a committee of fourteen Democrats, eleven of whom are lawyers and the other three have had no business experience.

President Taft has enforced the employers' liability act and approved the extension of its provisions so that employes of railroad carriers may bring suits in any district in which the defendant was doing business at the time of the commencement of the action.

These are a few—and only a few—of the great achievements of President Taft's administration. It is a record unequalled by any president, and the work has all been done without self-glorification and in a modest and effective way.

DEMAND FOR LABOR

Unprecedented Prosperity in the United States Sends Up a Call From Ocean to Ocean for Unskilled Labor.

The demand for unskilled labor never was so great in the United States as it is at present. There is also a large and general demand for skilled labor in many important lines. The cry has gone up from New York state and extends south along the Atlantic coast, across the south line of the Union to California, up the Pacific coast to Seattle, and back across the heart of the country from Kansas City to St. Louis, to Chicago, to Detroit, to Pittsburg.

Everywhere laborers are needed in the harvests, the forests, the mines, the factories, the mills; on the railroads, for the construction of public highways and in our great industrial centers.

Even within a hundred-mile radius of New York city the call is no less insistent. Labor agencies cannot supply the demand there. Contractors need manual help for aqueducts, tunnels, building excavations. There is work for every man willing to take pick and shovel and utilize the opportunity to earn a daily wage whose minimum is $1.75.

Can anyone doubt that it is this condition of universally employed labor which is responsible for the high prices for farm products—prices which are giving the American farmer the greatest degree of prosperity he has ever known?

And can anyone believe that these conditions, either as to laborers or farmers, would be bettered by a change in the administration at Washington? Why make a change for the mere sake of change? "Let sleeping dogs lie."

A BUSINESS ADMINISTRATION

President Taft Has Given Good Government to the People.

From 1882 to 1892 the ordinary expenses of the federal government increased at the rate of about 3 per cent a year. In the succeeding decennial period they increased about 4 per cent a year. Under the presidency of Mr. Roosevelt the annual increase was almost 6 per cent. Mr. Taft has not only stopped this annual increase which had so long seemed inevitable, but has actually brought about a decrease. Under Mr. Roosevelt the ordinary annual expenses of the government grew from about $471,000,000 to $662,000,000, an increase of $191,000,000 in seven years. Mr. Taft has reduced them from $662,000,000 to $654,000,000.

We talk a lot about economy in public affairs. Isn't it worth while to stop a moment and give credit to a president who has actually done what we have all been saying ought to be done?

What Happened.

Ah, if the workingmen of this country could only know how they have been fooled about the protective tariff working for their benefit. Why, if the protective tariff was relieved at a great many points, this is what would happen, that American industry would take on a new size and speed — Mr. Wilson.

Why, certainly that is what would happen—just as it did the last time the protective tariff was "relieved."

Getting Back to Normal.

From the St. Louis Times:

The one unmistakable political tendency at present is the country-wide recognition of the rare merits of President Taft. A period of normal reflection has set in The shout has had its day and the intelligent inquiry, the frank recognition of facts, have arrived.

The Difference.

From the Belvedere (Ill.) Republican:

The difference between the Roosevelt and Taft administrations is that Mr. Roosevelt talked loudly against those whom he called "malefactors," and secretly protected some of them from the law, while Mr. Taft has made no threats, but has just enforced the laws.

If you are too young to remember what happened the last time the Democratic party was in power, ask some older man who was in business then. There is no danger that he will have forgotten it.
